

COMING SOON TO A CURB NEAR YOU!

This area has been identified as one of Montgomery County's High Incidence Areas for pedestrian crashes. Soon, this corridor will be participating in a pedestrian safety education project. Special safety messages will be placed along the curb to remind pedestrians that it is unsafe to cross in unmarked locations. In addition, community representatives will be reminding pedestrians to follow safe walking rules and police officers will be issuing warnings or tickets to drivers and pedestrians who break the law.

What are some things you can do to be a safe pedestrian?

- Cross the street at marked crosswalks and intersections whenever possible.
- Always stop and look left, right, then left again, and over your shoulder for turning vehicles before crossing a street, even when you have the right-of-way.
- Make eye contact with drivers so they see you. Never assume they do.
- Stay visible after dark and in bad weather with light colored clothing, reflectors, or reflective clothing.
